## Welcome Back!

Welcome back, everyone! We hope you had a restful and rejuvenating winter break. As we dive into the spring semester, we're excited to continue supporting your research journeys and can't wait to see all the innovative ideas and projects you'll bring to life this semester!

## Call for Articles

If you are a student who has participated in one of our programs and are featured in an article or journal that you would like us to share, please email [katfeld@udel.edu](mailto:katfeld@udel.edu). We would be happy to feature your achievements in our newsletter and/or instagram!

## UDRAW

### Spring 2025 Research Projects are available now!

University of Delaware's Research Apprenticeship Work-Study (UDRAW) allows eligible students to use federal work-study funds in order to gain research experiences at the University of Delaware.

UDRAW is for work-study eligible students **only**.

Available UDRAW research projects for Fall 2024 **AND** more info about UDRAW can be found: [CLICK HERE](#)

## Summer Scholars

### The Summer Scholars Application is now open!

The Summer Scholars Program allows undergraduates to conduct independent research or creative work with faculty guidance. Participants work full-time for ten weeks in the summer, receiving a \$4,000 stipend. Applicants must propose their own research project.

We are accepting applications until **March 3rd, 2025 at 11:59pm**.

For more information: [CLICK HERE](#)

# Winter Showcase

## Showcase for Undergraduate Research, Scholarly and Creative Works

Join us for the Winter Showcase on February 19th in the Reading Room at Morris Library! It was originally supposed to be held on February 12th, but due to the University's closure, we have rescheduled it to February 19th.

We are excited to partner with the UD Library, Museum, and Press for this special event. Students from the 2025 Winter Fellows program will be presenting their research, and we encourage you to come out and support our talented fellows.

---

## Student Travel Award

The Undergraduate Research Program funded Millie Dill, a current Senior Thesis student, to go to the American Astronomical Society Conference in National Harbor, Maryland.

About Millie's experience:

"The AAS conference provided me with the opportunity to explore other areas in astrophysics and immerse myself in others' research. I was able to present my research on pulsating hydrogen atmosphere white dwarfs to a larger audience. I met new researchers and connected with a graduate professor at a university to which I applied to a PhD program. I collected multiple fliers to distribute to the Society of Physics Students, of which I'm the vice president. Overall, this experience left me more confident in my work as an undergraduate researcher and expanded my network."

-Millie Dill

Current Senior Thesis student

## Meet with Us!

If you have any questions about undergraduate research, want to talk through a research idea, or need any help at all you can always set up an appointment with our office. Fill out an appointment request through the following link and Katherine will reach out to you: [HERE](#)
